DECLASS REVIEW by NIMA/DOD

WARNING

This document contains information affecting the national security of the United States within the meaning of the espionage laws U. S. Code Title 18, Sections 793 and 794. The law prohibits its transmission or the revelation of its contents in any manner to an unauthorized person, as well as its use in any manner prejudicial to the safety or interest of the United States or for the benefit of any foreign government to the detriment of the United States. It is to be seen only by personnel especially indoctrinated and authorized to receive information in the designated control channels. Its security must be maintained in accordance with regulations pertaining to TALENT-KEYHOLE Control System.

## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1A

Leningrad Barracks Krasnoye Selo [REDACTED] and Krasnoye Selo Training Area South [REDACTED] are located just south of Krasnoye Selo and 29 kilometers (km) south-southwest of Leningrad (Figure 1).

The installations cover approximately 700 acres. Leningrad Barracks Krasnoye Selo is divided into 2 sections by a lake and the Konstantinovka - Gatchina railroad. Although tree cover precludes a precise count, the following buildings were observed: 5 possible administration buildings, 3 probable administration/barracks buildings, 7 probable barracks, 2

possible messhalls, 129 miscellaneous buildings and sheds, and approximately 100 tent bases (Figures 2 and 3).

Krasnoye Selo Training Area South, located just west of the occupied area, is in an open field and contains rectangular weapons emplacements and SAM emplacements. It is probably used for SAM mobilization training by the adjacent SAM training installation as well as for infantry field-training exercises.

[REDACTED] KEYHOLE missions of interpretable quality covered the area between [REDACTED] [REDACTED]. No significant change was observed.

#### DESCRIPTION OF INSTALLATION

##### Railroad Service

The double-track Konstantinovka - Gatchina railroad passes through the installation.

##### Road Service

Secondary roads serve the area.

##### Aircraft Landing Strips

Four airfields are within 18 km of the installation.

##### Administration and Troop Housing Areas

Area D1 contains 2 possible administration buildings, 7 probable barracks, and 25 miscellaneous support buildings.

Area D2 is a bivouac area with approximately 100 tent bases.

Area D3 is a probable bivouac area with approximately 20 miscellaneous support buildings.

Area D4 is a probable bivouac area with 3 possible administration buildings, 2 possible

messhalls, and approximately 70 miscellaneous buildings and sheds.

Area D5 contains 3 probable administration/barracks buildings and 14 miscellaneous support buildings.

##### Athletic Fields

Areas K1-K5 are athletic fields/exercise tracks.

##### Infantry or Combined Arms Field Training Area or Courses

Area R is a probable field training/maneuver area. Rectangular weapons emplacements are scattered throughout the area. SA-2 emplacements indicate this site may be shared by the adjacent SAM training facility.

##### Special Training Facilities

Area S is a possible tank or SP-gun training facility with 16 rectangular emplacements.
